Thank you for doing this- working Friday evenings is hard enough but I know this is difficult in other ways. While I know you are monitoring the sites, I hope you can also take some time to enjoy your weekend.

Sincerely

Matt

Subject: RE: Request for time-sensitive website assistance

Hi All,

All of the requested changes have been implemented. The redirects are in and tested. The old pages have been purged and our Content Delivery Network (Akamai) is serving the new pages.

Thanks to Susan Fagan and Michael Hessling for putting in a little extra time on a Friday night to make this happen. The Web Team always seems to come through for the Agency in the clutch. And thanks to OPA for providing clear direction.

If anyone notices any problems over the weekend, please feel free to call me at 202-566-0696 or Susan at 202-566-2021. We both have our desk numbers rolling over to our cells. As usual Michael will be monitoring traffic over the weekend to make sure our network is able to handle a surge in traffic if necessary.

Have a great weekend everyone.

Cheers,

Lin

The redirects are in and we believe they are all working.

Pages are being purged from Akamai, although it may take up to 30 more minutes for them all to clear.

They clear fast but one by one.

Hi all – the link below has the old language to for the custom 404 page – Susan, you have the new language, right?

Also the energy independence page is live per Danny and Susan has the URL.

Let me check one thing on the press release issue – I think you are saying that you would put the custom page up –and then when we send you the press release link you will update it.

Will be right back in touch.

Thanks ng

Subject: RE: Request for time-sensitive website assistance

Nancy and Matt,

Here are the actions that need to occur.

1. Put in redirects related to CC
2. Re start apache webserver one at a time
3. Test some important CC related URLs

Once the global redirect is in place (1), the CC site will no longer be findable to the public and instead the visitors will go to

<https://www.epa.gov/sites/production/files/signpost/cc.html>

But we have a bit of a circle here—the custom page is supposed to link to the press release, and the press release has to be published for that link to work.

So Nancy do you want us to add the press release link AFTER the press release is live to the custom page?

<image002.gif>

Hi there –

So we have this now – just wondering how we should coordinate timing – as we need to send the press release once everything is done and then that link needs to go in the custom 404 notice.

Do we have a sense of timing?

Thanks much

ng

Subject: Request for time-sensitive website assistance

Steve, Harvey and Matt,

As discussed with Nancy, we would like the content at the links below removed and archived as soon as possible.

The removed climate change pages will be replaced with a custom page that will explain why the change is happening, include a link to the January 19, 2017 snapshot of the EPA website, and a link to the press release we'll be putting out.

The clean power plan pages will be redirected to the newly posted energy independence pages.

We appreciate your assistance in this time-sensitive matter.

Please let us know if you have questions.

Thank you
